December 13, 2018

To : All valuable customers,

Implementation of "Low Sulphur Surcharge" (LSS)

This is a notice to inform that HEUNG-A SHIPPING CO LTD will support and comply to reduce carbon emission from shipping industry.

The cost of compliance with the new regulation along with the increase in fuel price have made the current business environment unsustainable in the long run.

Hence, in order to ensure our continued service to our esteemed customers, it is inevitable that we will need to implement a surcharge for all import and export cargo to/from Hong Kong.

Below is the quantum which will be implemented and collected in Hong Kong for both outbound and inbound shipments regardless the ocean freight term is prepaid or collect :-

USD20.00 per 20' / USD40.00 per 40'

Effective date: 2 Jan 2019

The new tariff will be applied on all import and export shipments based on the arrival date of import mother vessel and the onboard date of export mother vessel.

We would like to seek for your kind understanding and support.
